FOR THE RECORD — At the request of readers, we have added two features to our For the Record page on Thursdays.

With the cooperation of Sheriff Ron Bateman and his staff, we are publishing the names on unserved warrants, with the hope that readers will recognize those listed and alert authorities to their whereabouts. The list is too long to publish in its entirety, so only a sampling appears. The Sheriff's Office hopes to run a complete list on its Web site soon.

We're also running a list of code enforcements by the county Department of Inspections and Permits. Included are people who abandoned vehicles, failed to get building and grading permits, or cut down trees illegally. We hope the embarrassment of having one's name published will discourage code violations. CAPITAL 3/18/2007
